

This is a summary of Ronny Gabriel Zuñiga Vindas's profile. Ronny is a software development student in Guapiles, Costa Rica, aiming for a career in software development. He is currently pursuing a Bachelor's degree and has completed two years of study, including Software Development Technician courses at SOFTEC.

****Key highlights:****

- * ****Education:**** Bachelor's degree in Software Development (in progress, 2 years completed). SOFTEC Software Development Technician courses passed.
- * ****Experience:**** He has practical experience in developing dynamic websites using .NET with the MVC model and React. Specific projects include a gym website and a game item statistics tracker.
- * **** .NET & MVC Experience:**** Demonstrated experience developing a dynamic website for a gym using .NET with the MVC architecture.
- * ****React Experience:**** Demonstrated experience developing a dynamic website for tracking item statistics in a game using React.
- * ****Technical Skills:**** Ronny possesses a good foundation in programming languages like Java, JavaScript, C#, and C++. He has experience with SQL databases (procedures and transactions) and version control using Github. He also has skills in debugging and testing software applications.
- * ****Languages:**** Ronny indicates B2+ level proficiency in English.
- * ****Overall:**** Ronny is a developing software professional with demonstrated experience in building dynamic websites using modern technologies such as .NET, MVC, React, HTML, CSS, Javascript and SQL as well as BigQuery.

****Areas for potential growth (inferred):****

- * While he has "medium knowledge" of several languages, specifying proficiency levels (e.g., beginner, intermediate, advanced) would be beneficial.
- * Detailing specific technologies within the .NET framework he has experience with would enhance his profile.
- * Expanding on his experience with development management beyond "basic proficiency" with Github could strengthen his profile.
