

This is a summary of Ronny Gabriel Zuñiga Vindas' profile, highlighting his skills and experience in software development:

****Overview:****

Ronny is a software development student from Guapiles, Costa Rica, currently pursuing a Bachelor's degree. He possesses practical experience in developing dynamic websites using the .NET framework with the MVC design pattern, as well as experience with React. His skillset encompasses front-end and back-end development, database implementation, and debugging.

****Key Strengths:****

- * **.NET MVC Development:** Ronny has demonstrable experience in developing .NET projects utilizing the MVC architectural pattern. This includes proficiency in C#, HTML, CSS, and JavaScript.
- * **Front-End and Back-End Development:** He demonstrates an ability to integrate front-end and back-end functionalities, showcasing a full-stack approach.
- * **Database Management:** Ronny possesses experience with SQL databases, including implementing procedures and transactions. He also has exposure to BigQuery.
- * **Technical Skills:** He lists proficiency in Java, JavaScript, C#, and C++, along with debugging and testing skills and basic knowledge of Git for development control.
- * **Language Proficiency:** He has a B2+ level of English proficiency.

****Experience Highlights:****

- * **.NET Project Development (Gym Website):** Developed a dynamic website for a gym using the MVC pattern, utilizing C#, HTML, CSS, JavaScript, and SQL. (April 2024 - May 2024)
- * **React Project Development (Game Statistics Tracker):** Created a dynamic website for tracking item statistics in a game using C#, HTML, CSS, JavaScript, and BigQuery. (November 2024 - December 2024)

****Education:****

- * Currently pursuing a Bachelor's in Software Development (2 years completed).
- * Completed Software Development Technician courses from SOFTEC.

****Overall Impression:****

Ronny presents himself as a motivated and skilled software developer with practical experience in relevant technologies and a good understanding of web development principles. While still a student, his projects showcase his ability to apply his knowledge to real-world scenarios. His experience using both .NET with MVC and React highlight his adaptability and willingness to learn different frameworks.
